## People in Struggle for Independence and Democracy

"Wherever there is oppression there is struggle. And wherever there is struggle there are defeats and victory. But the final victory belongs to the people. This is not my claim, history claims this and the heroic struggle of the Vietnamese people demonstrated this. The people speak this and the people speak the truth."

Mehdi Rezai — member of "Organization of Mojahadeen of the People of Iran," 19 years old, tortured and killed by SAVAK.
